CLASS A SHARES

Ticker: USPVX

CLASS C SHARES

Ticker: USPCX

ADVISOR CLASS SHARES

Ticker: USPFX

This prospectus describes the Union Street Partners Value Fund, a series of shares offered by World Funds Trust. A series fund offers you a choice of investments, with each series having its own investment objective and a separate portfolio. The Union Street Partners Value Fund is authorized to offer three classes of shares, all of which are offered by this prospectus.

IMPORTANT NOTE: Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the fund's shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from the fund or from your financial intermediary, such as a broker-dealer or bank. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the fund or your financial intermediary electronically by calling or sending an email request. You may elect to receive all future reports in paper free of charge. You can inform the fund or your financial intermediary that you wish to continue receiving paper copies of your shareholder reports by calling or sending an email request. Your election to receive reports in paper will apply to all funds held with the fund complex/your financial intermediary.

The U.S. Securities and Exchange Commission has not approved or disapproved these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

FUND SUMMARY

Investment Objective

The Union Street Partners Value Fund (the “Fund”) seeks to achieve capital appreciation.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund. You may qualify for sales charge discounts if you and your family invest, or agree to invest in the future, at least \$50,000 in the Fund. **More information about these and other discounts is available from your financial professional and in the section “Distribution Arrangements” of this prospectus and in the section “Distribution” in the Fund’s statement of additional information.**

Shareholder Fees (fees paid directly from your investment)	Class A	Class C	Advisor Class
Maximum sales charge (load)	5.75%	None	None
Maximum deferred sales charges (load) (as a percentage of the net asset value at time of purchase)	None ⁽¹⁾	1.00%	None
Redemption Fee	None ⁽²⁾	None	None
Exchange Fee	None	None	None

Annual Fund Operating Expenses
 (expenses that you pay each year as a percentage of the value of your investment)

	Class A	Class C	Advisor Class
Management Fee	1.00%	1.00%	1.00%
Distribution (12b-1) and Service Fees	0.25%	1.00%	None
Other Expenses	0.53%	0.53%	0.53%
Shareholder Services Plan	0.05%	0.04%	0.10%
Total Annual Fund Operating Expenses	1.83%	2.57%	1.63%
Fee Waivers and/or Expense Reimbursements ⁽³⁾	(0.23%)	(0.22%)	(0.28%)
Total Annual Fund Operating Expenses (after fee waivers and expense reimbursements)⁽³⁾	1.60%	2.35%	1.35%

- (1) With respect to certain purchases made without the imposition of a sales charge at the time of purchase, you may be charged a 1.00% contingent deferred sales charge on Class A shares if you redeem your shares less than 1 year after you purchase them.
- (2) If the Fund waives the contingent deferred sales charge on your purchase of Class A shares in order to qualify the Fund for inclusion in certain brokerage platforms, wrap programs and fund supermarkets, you will be subject to a 1.00% redemption fee if you redeem your shares less than 1 year after you purchase them.
- (3) Union Street Partners, LLC (the "Adviser") has entered into a written expense limitation agreement under which it has agreed to limit the total expenses of the Fund (exclusive of interest, distribution fees pursuant to Rule 12b-1 Plans, taxes, acquired fund fees and expenses, brokerage commissions, extraordinary expenses and dividend expense on short sales) to an annual rate of 1.35% of the average daily net assets of the Fund. The Adviser may not terminate this expense limitation agreement prior to January 31, 2020. Each waiver and/or reimbursement of an expense by the Adviser is subject to repayment by the Fund within three years following the date such waiver and/or

reimbursement was made, provided that the Fund is able to make the repayment without exceeding the expense limitation in place at the time of the waiver or reimbursement and at the time the waiver or reimbursement is recouped.

Example

This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. The effect of the Adviser's agreement to waive fees and/or reimburse expenses is only reflected in the first year of each example shown below. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

Share Class	1 Year	3 Years	5 Years	10 Years
Class A	\$728	\$1,096	\$1,488	\$2,582
Class C	\$438 ⁽¹⁾	\$779	\$1,346	\$2,889
Advisor Class	\$137	\$487	\$860	\$1,909

⁽¹⁾ If you did not redeem your shares, your cost would be \$238 for the one year period.

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in Total Annual Fund Operating Expenses or in the example, affect the Fund's performance. During the Fund's most recent fiscal period ended September 30, 2018, the Fund's portfolio turnover rate was 25.54% of the average value of its portfolio.

Principal Investment Strategies

Under normal market conditions, the Fund will invest primarily in the equity securities of large capitalization ("large-cap") U.S. companies. The Fund defines a large-cap company as one whose market capitalization is \$5 billion or greater at the time of purchase. The Fund will normally hold a core position of between 25 and

30 securities. The number of securities held by the Fund may occasionally exceed this range at times, such as when the portfolio managers are accumulating new positions, phasing out and replacing existing positions, or responding to exceptional market conditions.

Equity securities consist of common stock, depositary receipts (including American Depository Receipts ("ADRs"), European Depository Receipts ("EDRs"), Global Depository Receipts ("GDRs") and unsponsored depositary receipts), real estate investment trusts ("REITs"), master limited partnerships ("MLPs"), and securities convertible into common stock, such as warrants, rights, convertible bonds, debentures and convertible preferred stocks. ADRs are receipts typically issued by an American bank or trust company that evidence underlying securities issued by a foreign corporation. EDRs (issued in Europe) and GDRs (issued throughout the world) each evidence a similar ownership arrangement. MLPs are generally energy-related businesses and the Fund may invest in energy, real estate, and/or finance-related MLPs if the Adviser believes the business will deliver desirable returns.

The Fund may invest up to 20% of its net assets in high quality money market instruments and repurchase agreements. The Fund may also invest in shares of other registered investment companies, such as closed-end investment companies and exchange-traded funds ("ETFs").

McGinn Investment Management, Inc. (the "Sub-Adviser") utilizes a value approach to investing in that it selects investments for the Fund based on its belief that stock prices fluctuate around the true value of a company. The Sub-Adviser analyzes valuation ratios and typically selects stocks with low ratios of price/earnings, price/cash flow, price/book value and price/dividend.

The Sub-Adviser desires to produce superior risk adjusted returns by building portfolios of businesses with outstanding risk/reward profiles without running a high degree of capital risk. The Sub-Adviser only invests in those businesses it understands and where it has confidence in the company's management and financial strength. Emphasis is placed on those companies which the Sub-Adviser believes are most likely to prosper under various economic conditions.

The Sub-Adviser sells or reduces the Fund's position in a security (1) when it approaches the Sub-Adviser's estimate of its fair value, (2) when its economic fundamentals have deteriorated, or (3) when the facts or the analysis surrounding the reason to originally put the security in the Fund's portfolio have changed.

The Fund is a "non-diversified" fund, which means it can invest in fewer securities at any one time than a diversified fund. Also, from time to time the Fund may invest a significant portion of its assets in a limited number of industry sectors, but will not concentrate in any particular industry.

Principal Risks

Risks of Investing in Common Stocks. Overall stock market risks may affect the value of the Fund. Factors such as domestic economic growth and market conditions, interest rate levels, and political events affect the securities markets. When the value of the Fund's investments goes down, your investment in the Fund decreases in value and you could lose money.

Risks of Investing in Undervalued Securities. Undervalued securities are, by definition, out of favor with investors (meaning they have lost investors' attention), and there is no way to predict when, if ever, the securities may return to favor.

Risk of Non-Diversification. The Fund is a non-diversified portfolio, which means that it has the ability to take larger positions in a smaller number of securities than a portfolio that is "diversified." Non-diversification increases the risk that the value of the Fund could go down because of the poor performance of a single investment.

Risks of Investing in Investment Companies and ETFs. To the extent the Fund invests in other investment companies, the Fund will indirectly bear its proportionate share of any expenses (such as operating expenses and advisory fees) that may be paid by certain of the investment companies in which it invests. These expenses would be in addition to the advisory and other expenses that the Fund bears in connection with its own operations. In addition, investments in other investment companies, including ETFs, are subject to product specific risk and market risk. If the specific investments in which the investment company or ETF focuses its investments does not perform as expected, the value of the investment may decline. Similarly, to the extent the investment company or ETF is intended to replicate the performance of a particular index or benchmark and that index or benchmark does not perform as expected for any reason, the value of the investment in the investment company or ETF may decline.

When the Fund invests in other investment companies or ETFs, it will be subject to substantially the same risks as those associated with the direct ownership of securities comprising the underlying investment companies or ETFs or the index on which the other investment company or ETF is based and the value of the Fund's investments will fluctuate in response to the performance and risks of the underlying investments or index.

Master Limited Partnerships ("MLPs") Risk. Master limited partnerships are generally considered interest-rate sensitive investments. During periods of interest rate volatility, these investments may not provide attractive returns.

Depending on the state of interest rates in general, the use of MLPs could enhance or harm the overall performance of the Fund.

Repurchase Agreement Risk. The Fund's investment in repurchase agreements may be subject to market and credit risk with respect to the collateral securing the repurchase agreements. Investments in repurchase agreements also may be subject to the risk that the market value of the underlying obligations may decline prior to the expiration date of the repurchase agreement term.

Risks of Investing in Convertible Securities. Most convertible securities are subject to the risks and price fluctuations of the underlying stock. They may be subject to the risk that the issuer will not be able to pay interest or dividends when due and their market value may change based on changes in the issuer's credit rating or the market's perception of the issuer's creditworthiness.

Risk of Investing in REITs. REITs may be subject to certain risks associated with the direct ownership of real estate, including declines in the value of real estate, risks related to general and local economic conditions, overbuilding and increased competition, increases in property taxes and operating expenses, and variations in rental income.

Risk of Investing in Depositary Receipts. ADRs are dollar-denominated depositary receipts that typically are issued by a United States bank or trust company and represent the deposit with that bank or trust company of a security of a foreign issuer. Generally, ADRs are designed for trading on U.S. securities exchanges or other markets. ADRs may be sponsored or unsponsored. EDRs are issued in Europe and GDRs are issued throughout the world.

Although depositary receipts provide a convenient means to invest in non-U.S. securities, such investments involve risks generally similar to investments directly in foreign securities including the risk that there is often less publicly available information about foreign issuers, and there is the possibility of negative governmental actions and of political and social unrest. The issuers of unsponsored depositary receipts may not receive information from the foreign issuer, and it is under no obligation to distribute shareholder communications or other information received from the foreign issuer of the deposited securities or to pass through voting rights to the holders of the depositary receipts. Additionally, although depositary receipts have risks similar to the securities that they represent, they may involve higher expenses, may trade at a discount (or premium) to the underlying security, may not pass through voting and other shareholder rights, and may be less liquid than the underlying securities listed on an exchange. To the extent that the Fund invests in issuers (or depositary receipts of issuers) located in emerging markets, the foreign securities risk may be heightened.

Performance History

The bar chart and table below provide some indication of the risks of investing in the Fund by showing changes in the Fund's performance from year to year and by showing how the Fund's average annual returns for the periods indicated compare with those of a broad measure of market performance. The bar chart figures do not include sales charges that may have been paid when investors bought and sold shares of the Fund. If sales charges were included, the returns would be lower. The Fund's past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. Updated performance information is available by calling toll-free 800-673-0550.

The following bar chart shows the annual returns for Class A shares of the Fund for each full calendar year of the Fund's operations. The performance of the Fund's Class C shares and Advisor Class shares would have been different because the expenses of the Classes differ.

During the periods shown in the bar chart, the Class A shares' highest return for a calendar quarter was 14.96% (quarter ending 3/31/2012) and the Class A shares' lowest return for a calendar quarter was (17.85%) (quarter ending 12/31/2018).

Average Annual Total Returns for the Period Ended December 31, 2018

The table below shows how the average annual total returns of the Fund's Classes shares compared to those of the Fund's benchmark. The table also presents the impact of taxes on the Fund's Class A shares. After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts. After-tax returns for the Class C and Advisor Class shares will differ from those of the Class A shares as the expenses of the Classes differ.

Return Before Taxes	1 Year	5 Years	Since Inception
Class A Shares	(11.63%)	3.75%	7.26% (12/29/10)
Class A Shares – with maximum load of 5.75%	(16.71%)	2.53%	6.47% (12/29/10)
Class C Shares	(12.32%)	2.98%	6.43% (04/14/11)
Advisor Class Shares	(11.42%)	N/A	4.82% (04/27/16)
Return After Taxes – Class A Shares	1 Year	5 Years	Since Inception (12/29/10)
Return After Taxes on Distributions	(12.20%)	3.41%	6.98%
Return After Taxes on Distributions and Sale of Fund Shares	(7.19%)	3.11%	6.11%
Russell 1000 Value Index (reflects no deduction for fees, expenses, or taxes)	(8.27%)	5.95%	9.63%

Investment Adviser and Sub-Adviser

Union Street Partners, LLC is the investment adviser to the Fund. McGinn Investment Management, Inc. is the sub-adviser to the Fund.

Portfolio Manager

Mr. Bernard F. McGinn, CFA, President of the Sub-Adviser, has served as the Portfolio Manager to the Fund since its inception in December 2010.

Mr. R. McCoy Penninger, CFA, Vice President of the Sub-Adviser, began serving as the assistant Portfolio Manager in February 2015.

Purchase and Sale of Fund Shares

You may purchase, redeem or exchange shares of the Fund on days when the New York Stock Exchange is open for regular trading through a financial advisor, by mail (Union Street Partners Value Fund, 8730 Stony Point Parkway, Suite 205, Richmond, Virginia 23235), by wire, or by telephone toll-free at 1-800-673-0550. Purchases and redemptions by telephone are only permitted if you previously established this option on your account. The minimum initial purchase or exchange into the Fund is \$2,500. Subsequent investments must be in amounts of \$50 or more. The Fund may waive minimums for purchases or exchanges through employer-sponsored retirement plans.

Tax Information

The Fund's distributions will be taxed as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account in which case withdrawals will be taxed.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other financial intermediary and your sales person to recommend the Fund over another investment. Ask your sales person or visit your financial intermediary's website for more information.

ADDITIONAL INFORMATION ABOUT FUND INVESTMENTS

The Fund's investment objective is capital appreciation. Under normal market conditions, the Fund will invest primarily in the equity securities of large-cap U.S. companies. The Fund defines a large-cap company as one whose market capitalization is \$5 billion or greater at the time of purchase. Equity securities consist of common stock, depositary receipts (including ADRs, EDRs, GDRs and unsponsored depositary receipts), REITs, MLPs, and securities convertible into common stock, such as warrants, rights, convertible bonds, debentures and convertible preferred stocks. ADRs are receipts typically issued by an American bank or trust company that evidence underlying securities issued by a foreign corporation. EDRs (issued in Europe) and GDRs (issued throughout the world) each evidence a similar ownership arrangement. MLPs are generally energy-related businesses and the Fund may invest in energy, real estate, and/or finance-related MLPs if the Adviser believes the business will deliver desirable returns.

The Fund may invest up to 20% of its net assets in high quality money market instruments and repurchase agreements. Money market instruments may include commercial paper, asset-backed commercial paper, obligations issued by the U. S. government and its agencies and instrumentalities, and obligations issued by U.S. and foreign banks, such as certificates of deposit. Such money market instruments will be "high quality" (i.e., securities receiving one of the two highest ratings categories from a nationally recognized statistical ratings agency).

The Fund may also invest in shares of other registered investment companies, such as closed-end investment companies and ETFs. ETFs, generally, are investment companies that seek to track the performance of a particular market index. These investment companies invest in securities that are consistent with the Fund's investment objective and strategies. By investing in other investment companies, the Fund indirectly pays a portion of the expenses and brokerage costs of these companies as well as its own expenses. Also, federal securities laws impose limits on such investments, which may affect the ability of the Fund to purchase or sell these securities. Securities of other investment companies will be acquired by the Fund within the limits contained in the Investment Company Act of 1940, as amended (the "1940 Act").

The Sub-Adviser utilizes a value approach to investing in that it selects investments for the Fund based on its belief that stock prices fluctuate around the true value of a company. The Sub-Adviser analyzes valuation ratios and typically selects stocks with low ratios of price/earnings, price/cash flow, price/book value and price/dividend.

The Fund is "non-diversified" and will normally hold a core position of between 25 and 30 securities.

The Fund's investment objective may be changed by the Board of Trustees without shareholder approval. The Fund would seek to provide to its shareholders advance written notice of any material changes to the Fund's objective.

ADDITIONAL INFORMATION ABOUT RISK

An investment in the Fund is not guaranteed and you may lose money by investing in the Fund. The Fund is not a complete investment program. The value of your investment will go up and down, which means you could lose money when you sell your shares. There are risks involved with any investment, but the principal risks associated with an investment in the Fund include:

Market Risk. The Fund is subject to market risk. Market risk is the possibility that, over short or long periods, stock prices will decline. Because stock prices tend to fluctuate, the value of your investment in the Fund may increase or decrease.

Risks of Investing in Undervalued Securities. Undervalued securities are, by definition, out of favor with investors, and there is no way to predict when, if ever, the securities may return to favor.

Risk of Non-Diversification. The Fund is non-diversified under the 1940 Act. However, because it intends to qualify as a "regulated investment company" for purposes of Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"), the Fund must meet certain diversification requirements. These include the requirement that at the end of each tax year quarter, at least 50% of the market value of its total assets must be invested in cash, cash equivalents, U.S. government securities and securities of issuers (including foreign governments), in which it has invested not more than 5% of its assets. A regulated investment company is also limited in its purchases of voting securities of any issuer and may invest no more than 25% of the value of its total assets in securities (other than U.S. government securities) of any one issuer or of two or more issuers that the Fund controls and are engaged in the same, similar or related trades or businesses. An investment in a non-diversified fund may entail greater price risk than an investment in a diversified fund. The Fund will be subject to substantially more investment risk and potential for volatility than a diversified fund because the poor performance of an individual security in the Fund's portfolio will have a greater negative impact on the Fund's performance than if the Fund's assets were diversified among a larger number of portfolio securities.

Stock Selection Risk. Like all managed funds, there is a risk that the Sub-Adviser's strategy for managing the Fund may not achieve the desired results. The portfolio securities selected by the Sub-Adviser may decline in value or not increase in value when the stock market in general is rising and may fail to meet the Fund's investment objective. In addition, the prices of common stocks move up and down in response to corporate earnings and developments, economic and market conditions and anticipated events. Individual issuers may report poor results or be negatively affected by industry and/or economic trends and developments. The Fund's investment success depends on the skill of the Sub-Adviser in evaluating, selecting and monitoring the portfolio assets. If the Sub-Adviser's conclusions about growth rates or securities values are incorrect, the Fund may not perform as anticipated.

Risk of Investing in REITs. The Fund may invest in REITs. REITs may be subject to certain risks associated with the direct ownership of real estate, including declines in the value of real estate, risks related to general and local economic conditions, overbuilding and increased competition, increases in property taxes and operating expenses, and variations in rental income. Generally, increases in interest rates will decrease the value of high yielding securities and increase the costs of obtaining financing, which could decrease the value of the REITs held in the Fund's portfolio. REITs are also subject to heavy cash flow dependency, defaults by borrowers, self-liquidation and the possibility of failing to qualify for the tax-free pass-through of income under the Code and to maintain their exemption from registration under the 1940 Act.

Risk of Investing in MLPs. The Fund may invest in MLPs. MLPs are limited partnerships in which the ownership units are publicly traded. MLP units are registered with the U.S. Securities and Exchange Commission (the "SEC") and are freely traded on a securities exchange or in the over-the-counter market. MLPs often own several properties or businesses (or own interests) that are related to oil and gas industries or other natural resources, but they also may finance other projects. To the extent that an MLP's interests are all in a particular industry, the MLP will be negatively impacted by economic events adversely impacting that industry. The risks of investing in a MLP are generally those involved in investing in a partnership as opposed to a corporation. For example, state law governing partnerships is often less restrictive than state law governing corporations. Accordingly, there may be fewer protections afforded to investors in a MLP than investors in a corporation. In addition, MLPs may be subject to state taxation in certain jurisdictions which will have the effect of reducing the amount of income paid by the MLP to its investors.

Repurchase Agreement Risk. The Fund's investment in repurchase agreements may be subject to market and credit risk with respect to the collateral securing the repurchase agreements. Investments in repurchase agreements also

may be subject to the risk that the market value of the underlying obligations may decline prior to the expiration date of the repurchase agreement term.

Risks of Investing in Convertible Securities. Most convertible securities are subject to the risks and price fluctuations of the underlying stock. They may be subject to the risk that the issuer will not be able to pay interest or dividends when due and their market value may change based on changes in the issuer's credit rating or the market's perception of the issuer's creditworthiness.

Risk of Investing in Investment Companies and ETFs. The Fund may invest in the securities of other investment companies to the extent permitted by the 1940 Act. By investing in other investment companies, the Fund indirectly pays a portion of the expenses and brokerage costs of these companies as well as its own expenses. Also, federal securities laws impose limits on such investments, which may affect the ability of the Fund to purchase or sell these shares. Because the value of ETF shares depends on the demand in the market, shares may trade at a discount or premium to net asset value and the Sub-Adviser may not be able to liquidate the Fund's holdings at the most optimal time, which may result in a loss.

When the Fund invests in other investment companies or ETFs, it will be subject to substantially the same risks as those associated with the direct ownership of securities comprising the underlying investment companies or ETFs or the index on which the other investment company or ETF is based and the value of the Fund's investments will fluctuate in response to the performance and risks of the underlying investments or index.

Because the Fund is not required to hold shares of ETFs and underlying funds for any minimum period, it may be subject to, and may have to pay, short-term redemption fees imposed by the underlying funds. ETFs are subject to additional risks such as the fact that the market price of its shares may trade above or below its net asset value or an active market may not develop. The Fund has no control over the investments and related risks taken by the underlying funds in which it invests. The 1940 Act and the rules and regulations adopted under that statute impose conditions on investment companies which invest in other investment companies, and as a result, the Fund is generally restricted on the amount of shares of another investment company to shares amounting to no more than 3% of the outstanding voting shares of such other investment company.

Risk of Investing in Depositary Receipts. ADRs are dollar-denominated depositary receipts that typically are issued by a United States bank or trust company and represent the deposit with that bank or trust company of a security of a foreign issuer. Generally, ADRs are designed for trading on U.S. securities exchanges or other markets. ADRs may be sponsored or unsponsored. EDRs are issued in Europe and GDRs are issued throughout the world.

Although depositary receipts provide a convenient means to invest in non-U.S. securities, such investments involve risks generally similar to investments directly in foreign securities including the risk that there is often less publicly available information about foreign issuers, and there is the possibility of negative governmental actions and of political and social unrest. The issuers of unsponsored depositary receipts may not receive information from the foreign issuer, and it is under no obligation to distribute shareholder communications or other information received from the foreign issuer of the deposited securities or to pass through voting rights to the holders of the depositary receipts. Additionally, although depositary receipts have risks similar to the securities that they represent, they may involve higher expenses, may trade at a discount (or premium) to the underlying security, may not pass through voting and other shareholder rights, and may be less liquid than the underlying securities listed on an exchange. To the extent that the Fund invests in issuers (or depositary receipts of issuers) located in emerging markets, the foreign securities risk may be heightened.

Temporary Defensive Position. The investments and strategies described in this prospectus are those that the Fund uses under normal conditions. The Fund may take temporary "defensive" positions in attempting to respond to adverse market conditions. The Fund may invest any amount of its assets in cash or money market instruments in a defensive posture when the Sub-Adviser believes it is advisable to do so. Although taking a defensive posture is designed to protect the Fund from an anticipated market downturn, it could have the effect of reducing the benefit from any upswing in the market. When the Fund takes a defensive position, it may not achieve its investment objective.

MANAGEMENT

The Investment Adviser and Sub-Adviser

The Fund's investment adviser is Union Street Partners, LLC (the "Adviser"), a limited liability company organized under the laws of Delaware, whose address is 1421 Prince Street, Suite 400 Alexandria, VA 22314. The Adviser serves in this capacity pursuant to an investment advisory agreement with the Trust with respect to the Fund. Subject to the authority of the Board of Trustees of the Trust ("Trustees"), the Adviser provides guidance and policy direction in connection with its daily management of the Fund's assets. The Adviser is also responsible for the selection and oversight of the Sub-Adviser and the provision of certain executive personnel to the Fund. Union Street Partners, LLC was organized in December 2010 and is owned by Shawn P. McLaughlin and McGinn Investment Management, Inc. As of December 31, 2018, the Adviser had approximately \$26 million assets under management.

For the fiscal period ended September 30, 2018, the Adviser earned an aggregate fee of 1.00% of the Fund's average daily net assets for investment advisory services performed, of which 0.24% was waived pursuant to the expense limitation agreement.

The Adviser has entered into a written expense limitation agreement under which it has agreed to limit the total expenses of the Fund (exclusive of interest, distribution fees pursuant to Rule 12b-1 Plans, taxes, acquired fund fees and expenses, brokerage commissions, extraordinary expenses and dividend expense on short sales) to an annual rate of 1.35% of the average daily net assets of the Fund. The Adviser may not terminate this expense limitation agreement prior to January 31, 2020.

Each waiver or reimbursement of an expense by the Adviser is subject to repayment by the Fund within three years following the date such waiver and/or reimbursement was made, provided that the Fund is able to make the repayment without exceeding the expense limitation in place at the time of the waiver or reimbursement and at the time the waiver or reimbursement is recouped.

McGinn Investment Management, Inc. (the "Sub-Adviser"), a Delaware corporation, whose address is 277 S. Washington Street, Suite 340, Alexandria, Virginia 22314, serves as the Sub-Adviser to the Fund. The Sub-Adviser assists the Adviser in managing the Fund's assets, continuously reviews, supervises and administers the investment program of the Fund and determines the securities to be purchased and sold by the Fund. The Sub-Adviser is also responsible for the selection of broker-dealers for executing the Fund's portfolio transactions, subject to the brokerage policies adopted by the Trustees. McGinn Investment Management, Inc. was incorporated in 1992 and is majority owned by Bernard F. McGinn. As of December 31, 2018, the Sub-Adviser had approximately \$77 million assets under management.

A discussion regarding the basis for the Board of Trustees approving the investment advisory agreement and sub-advisory agreement for the Fund is available in the Fund's semi-annual report for the period ended March 31, 2018 and will also be available in the Fund's semi-annual report for the period ending March 31, 2019.

The Portfolio Managers

Since the Fund's inception on December 29, 2010, Mr. Bernard McGinn, CFA, has been primarily responsible for the day-to-day management of the Fund. Mr. McGinn is Chief Investment Officer of the Adviser and Chief Investment Officer of the Sub-Adviser.

Mr. R. McCoy Penninger, CFA, joined the Sub-Adviser in 2010. Mr. Penninger has served as the assistant Portfolio Manager to the Fund since February 2015. He holds an M.B.A. from the George Washington University and a B.A. in Economics from Sewanee: The University of the South. Mr. Penninger is a Partner and Vice President of the Sub-Adviser.

The Fund's Statement of Additional Information ("SAI") provides additional information about the portfolio managers' compensation, other assets managed by the portfolio managers, and the portfolio managers' ownership of securities in the Fund.

The Trust

The Fund is a series of the Trust, an open-end management investment company organized as a Delaware statutory trust on April 9, 2007. The Trustees supervise the operations of the Fund according to applicable state and federal law, and the Trustees are responsible for the overall management of the Fund's business affairs.

Rule 12b-1 Fees

The Board has adopted a Distribution Plan for the Fund's Class A shares and Class C shares (the "12b-1 Plan") in accordance with Rule 12b-1 under the 1940 Act. Pursuant to the 12b-1 Plan, the Fund may finance from the assets of a particular class certain activities or expenses that are intended primarily to result in the sale of shares of such class. The Fund finances these distribution and service activities through payments made to the Fund's principal underwriter (the "Distributor"). The fee paid to the Distributor by each class is computed on an annualized basis reflecting the average daily net assets of a class, up to a maximum of 0.25% for Class A share expenses and 1.00% for Class C share expenses. With respect to Class C shares, 0.75% represents 12b-1 distribution fees and 0.25% represents shareholder servicing fees paid to institutions that have agreements with the Distributor to provide such services. Because these fees are paid out of the Fund's assets on an ongoing basis, over time these fees will increase the cost of your investment and may cost more than paying other types of sales charges.

Shareholder Services Plan

The Fund has adopted a shareholder services plan. Under a shareholder services plan, the Fund may pay an authorized firm up to 0.25% on an annualized basis of average daily net assets attributable to its customers who are shareholders. For this fee, the authorized firms may provide a variety of services, including but not limited to: (i) arranging for bank wires; (ii) responding to inquiries from shareholder concerning their investment in the Funds; (iii) assisting shareholders in changing dividend options, account designations and addresses; (iv) providing information

periodically to shareholders showing their position in Shares; (v) forwarding shareholder communications from the Funds such as proxies, shareholder reports, annual reports, and dividend distribution and tax notices to Clients; (vi) processing purchase, exchange and redemption requests from shareholder and placing orders with the Funds or their service providers; (vii) providing sub-accounting with respect to Shares beneficially owned by shareholders; and (viii) processing dividend payments from the Funds on behalf of shareholders.

Because the Fund has adopted the shareholder services plan to compensate authorized firms for providing the types of services described above, the Fund believes the shareholder services plan is not covered by Rule 12b-1 under the 1940 Act, which relates to payment of distribution fees. The Fund, however, follows the procedural requirements of Rule 12b-1 in connection with the implementation and administration of each shareholder services plan.

An authorized firm generally represents in a service agreement used in connection with the shareholder services plan that all compensation payable to the authorized firm from its customers in connection with the investment of their assets in the Fund will be disclosed by the authorized firm to its customers. It also generally provides that all such compensation will be authorized by the authorized firm's customers.

The Fund does not monitor the actual services being performed by an authorized firm under the plan and related service agreement. The Fund also does not monitor the reasonableness of the total compensation that an authorized firm may receive, including any service fee that an authorized firm may receive from the Fund and any compensation the authorized firm may receive directly from its clients.

Shareholder Servicing

Certain financial intermediaries that maintain "street name" or omnibus accounts with the Fund provide sub-accounting, recordkeeping and/or administrative services to the Fund and are compensated for such services by the Fund. These service fees may be paid in addition to the fees paid under the 12b-1 Plans.

Other Expenses

In addition to the 12b-1 fees and the investment advisory fees, the Fund pays all expenses not assumed by the Adviser, including, without limitation, the following: the fees and expenses of its independent accountants and legal counsel; the costs of printing and mailing to shareholders annual and semi-annual reports, proxy statements, prospectuses, statements of additional information, and supplements thereto; the costs of printing registration statements; bank transaction charges and

custodian's fees; any proxy solicitors' fees and expenses; filing fees; any federal, state, or local income or other taxes; any interest; any membership fees of the Investment Company Institute and similar organizations; fidelity bond and Trustees' liability insurance premiums; and any extraordinary expenses, such as indemnification payments or damages awarded in litigation or settlements made.

Portfolio Holdings

A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio securities is available in the Fund's SAI. Complete holdings (as of the dates of such reports) are available in reports on Form N-Q and Form N-CSR filed with the SEC.

HOW TO BUY SHARES

You may purchase shares of the Fund through financial intermediaries, such as fund supermarkets or through brokers or dealers who are authorized by the Distributor to sell shares of the Fund (collectively, "Financial Intermediaries"). You may also purchase shares directly from the Distributor. You may request a copy of this prospectus by calling toll-free (800) 673-0550. Financial Intermediaries may require the payment of fees from their individual clients, which may be different from those described in this prospectus. For example, Financial Intermediaries may charge transaction fees or set different minimum investment amounts. Financial Intermediaries may also have policies and procedures that are different from those contained in this prospectus. Investors should consult their Financial Intermediary regarding its procedures for purchasing and selling shares of the Fund as the policies and procedures may be different. The price you pay for a share of the Fund is the net asset value ("NAV") next determined upon receipt by the Fund's transfer agent or Financial Intermediary. The Fund will be deemed to have received your purchase or redemption order when the Financial Intermediary receives the order. Such Financial Intermediaries are authorized to designate other intermediaries to receive purchase and redemption orders on the Fund's behalf.

Certain Financial Intermediaries may have agreements with the Fund that allow them to enter confirmed purchase and redemption orders on behalf of clients and customers. Under this arrangement, the Financial Intermediary must send your payment to the Fund by the time the Fund prices its shares on the following business day.

The Fund is not responsible for ensuring that a Financial Intermediary carries out its obligations. You should look to the Financial Intermediary through whom you wish to invest for specific instructions on how to purchase or redeem shares of the Fund.

Minimum Investments. The minimum initial investment for Class A, Class C, and Advisor Class shares is \$2,500. Subsequent investments must be in amounts of \$50 or more. The Trust may waive the minimum initial investment requirement for purchases made by directors, officers and employees of the Trust. The Trust may also waive the minimum investment requirement for purchases by its affiliated entities and certain related advisory accounts and retirement accounts (such as IRAs). The Trust may also change or waive policies concerning minimum investment amounts at any time. The Trust retains the right to refuse to accept an order.

Customer Identification Program. Federal regulations require that the Trust obtain certain personal information about you when opening a new account. As a result, the Trust must obtain the following information for each person that opens a new account:

- Name;
- Date of birth (for individuals);
- Residential or business street address (although post office boxes are still permitted for mailing); and
- Social security number, taxpayer identification number, or other identifying number.

You may also be asked for a copy of your driver's license, passport, or other identifying document in order to verify your identity. In addition, it may be necessary to verify your identity by cross referencing your identification information with a consumer report or other electronic database. Additional information may be required to open accounts for corporations and other entities.

After an account is opened, the Trust may restrict your ability to purchase additional shares until your identity is verified. The Trust also may close your account or take other appropriate action if it is unable to verify your identity within a reasonable time.

If your account is closed for this reason, your shares will be redeemed at the NAV next calculated after the account is closed.

Purchases by Mail. For initial purchases, the account application, which accompanies this prospectus, should be completed, signed and mailed to Commonwealth Fund Services, Inc. (the "Transfer Agent"), the Fund's transfer and dividend disbursing agent, at 8730 Stony Point Parkway, Suite 205, Richmond, Virginia 23235 together with your check payable to the Fund. When you buy shares, be sure to specify the class of shares in which you choose to invest. For subsequent purchases, include with your check the tear-off stub from a prior

purchase confirmation or otherwise identify the name(s) of the registered owner(s) and social security number(s).

Purchases by Wire. You may purchase shares by requesting your bank to transmit by wire directly to the Transfer Agent. To invest by wire, please call the Trust toll-free at (800) 673-0550 or the Transfer Agent toll-free at (800) 628-4077 to advise the Trust of your investment and to receive further instructions. Your bank may charge you a small fee for this service. Once you have arranged to purchase shares by wire, please complete and mail the account application promptly to the Transfer Agent. This account application is required to complete the Fund's records. You will not have access to your shares until the purchase order is completed in proper form, which includes the receipt of completed account information by the Transfer Agent. Once your account is opened, you may make additional investments using the wire procedure described above. Be sure to include your name and account number in the wire instructions you provide your bank.

Purchases by Telephone. You may also purchase shares by telephone, by contacting the Fund toll-free at (800) 673-0550 or the Transfer Agent toll-free at (800) 628-4077.

Other Purchase Information. You may purchase and redeem Fund shares, or exchange shares of the Fund for those of another, by contacting any broker authorized by the Distributor to sell shares of the Fund, by contacting the Fund toll-free at (800) 673-0550 or by contacting the Transfer Agent, at 8730 Stony Point Parkway, Suite 205, Richmond, Virginia 23235 or by telephoning toll-free (800) 628-4077. Brokers may charge transaction fees for the purchase or sale of the Fund's shares, depending on your arrangement with the broker.

HOW TO SELL SHARES

You may redeem your shares of the Fund at any time and in any amount by contacting your Financial Intermediary or by contacting the Fund by mail or telephone. For your protection, the Transfer Agent will not redeem your shares until it has received all information and documents necessary for your request to be considered in "proper form." The Transfer Agent will promptly notify you if your redemption request is not in proper form. The Transfer Agent cannot accept redemption requests which specify a particular date for redemption or which specify any special conditions.

The Fund's procedure is to redeem shares at the NAV next determined after the Transfer Agent or authorized Financial Intermediary receives the redemption request in proper form. Payment of redemption proceeds will be made promptly, as instructed by check, wire or automated clearing house (ACH) but no later than

the seventh calendar day following the receipt of the request in proper form. The Fund may suspend the right to redeem shares for any period during which the New York Stock Exchange (the “NYSE”) is closed or the SEC determines that there is an emergency. In such circumstances, you may withdraw your redemption request or permit your request to be held for processing after the suspension is terminated.

The Fund typically expects to meet redemption requests through cash holdings or cash equivalents and anticipates using these types of holdings on a regular basis. The Fund typically expects to pay redemption proceeds for shares redeemed within the following days after receipt by the transfer agent of a redemption request in proper form: (i) for payment by check, the Fund typically expects to mail the check within two business days; and (ii) for payment by wire or ACH, the Fund typically expects to process the payment within two business days. Payment of redemption proceeds may take up to 7 days as permitted under the 1940 Act. Under unusual circumstances as permitted by the SEC, the Fund may suspend the right of redemption or delay payment of redemption proceeds for more than 7 days. When shares are purchased by check or through ACH, the proceeds from the redemption of those shares will not be paid until the purchase check or ACH transfer has been converted to federal funds, which could take up to 15 calendar days.

To the extent cash holdings or cash equivalents are not available to meet redemption requests, the Fund will meet redemption requests by either (i) rebalancing overweight securities or (ii) selling portfolio assets. In addition, if the Fund determines that it would be detrimental to the best interest of the Fund’s remaining shareholders to make payment in cash, the Fund may pay redemption proceeds in whole or in part by a distribution-in-kind of readily marketable securities.

If you sell your shares through a securities dealer or investment professional, it is such person's responsibility to transmit the order to the Fund in a timely fashion. Any loss to you resulting from failure to do so must be settled between you and such person.

Delivery of the proceeds of a redemption of shares purchased and paid for by check shortly before the receipt of the redemption request may be delayed until the Fund determines that the Transfer Agent has completed collection of the purchase check, which may take up to 15 days. Also, payment of the proceeds of a redemption request for an account for which purchases were made by wire may be delayed until the Fund receives a completed account application for the account to permit the Fund to verify the identity of the person redeeming the shares and to eliminate the need for backup withholding.

Redemption By Mail. To redeem shares by mail, send a written request for redemption, signed by the registered owner(s) exactly as the account is registered, to: Union Street Partners Value Fund, Attn: Redemptions, 8730 Stony

Point Parkway, Suite 205, Richmond, VA 23235. Certain written requests to redeem shares may require signature guarantees. For example, signature guarantees may be required if you sell a large number of shares, if your address of record on the account application has been changed within the last 30 days, or if you ask that the proceeds be sent to a different person or address. Signature guarantees are used to help protect you and the Fund. You can obtain a signature guarantee from most banks or securities dealers, but not from a Notary Public. Please call the Transfer Agent toll-free at (800) 628-4077 to learn if a signature guarantee is needed or to make sure that it is completed appropriately in order to avoid any processing delays. There is no charge to shareholders for redemptions by mail.

Redemption By Telephone. You may redeem your shares by telephone provided that you requested this service on your initial account application. If you request this service at a later date, you must send a written request along with a signature guarantee to the Transfer Agent. Once your telephone authorization is in effect, you may redeem shares by calling the Transfer Agent toll-free at (800) 628-4077. There is no charge to shareholders for redemptions by telephone. If it should become difficult to reach the Transfer Agent by telephone during periods when market or economic conditions lead to an unusually large volume of telephone requests, a shareholder may send a redemption request by overnight mail to the Transfer Agent at 8730 Stony Point Parkway, Suite 205, Richmond, Virginia 23235.

Redemption By Wire. If you request that your redemption proceeds be wired to you, please call your bank for instructions prior to writing or calling the Transfer Agent. Be sure to include your name, Fund name, Fund account number, your account number at your bank and wire information from your bank in your request to redeem by wire. There is no fee for redemptions by wire.

Small Account Balances. If the value of your account falls below the minimum account balance of \$2,500, the Fund may ask you to increase your balance. If the account value is still below the minimum balance after 60 days, the Fund may close your account and send you the proceeds. The Fund will not close your account if it falls below this amount solely as a result of Fund performance. Please check with your financial intermediary concerning required minimum account balances. You should note that should such a redemption occur with regards to a non-retirement account, such redemption would be subject to taxation. Please refer to the section entitled "Dividends, Distributions and Taxes" below.

The Fund will not be responsible for any losses resulting from unauthorized transactions (such as purchases, sales or exchanges) if it follows reasonable security procedures designed to verify the identity of the investor. You should verify the accuracy of your confirmation statements immediately after you receive them.

Redemption in Kind. The Fund typically expects to satisfy requests by

using holdings of cash or cash equivalents or selling portfolio assets. On a less regular basis, and if the Adviser believes it is in the best interest of the Fund and its shareholders not to sell portfolio assets, the Fund may satisfy redemption requests by using short-term borrowing from the Fund's custodian to the extent such arrangements are in place with the custodian. In addition to paying redemption proceeds in cash, the Fund reserves the right to make payment for a redemption in securities rather than cash, which is known as a "redemption in kind." While the Fund does not intend, under normal circumstances, to redeem its shares by payment in kind, it is possible that conditions may arise in the future which would, in the opinion of the Trustees, make it undesirable for the Fund to pay for all redemptions in cash. In such a case, the Trustees may authorize payment to be made in readily marketable portfolio securities of the Fund, either through the distribution of selected individual portfolio securities or a pro-rata distribution of all portfolio securities held by the Fund. Securities delivered in payment of redemptions would be valued at the same value assigned to them in computing the Fund's NAV per share. Shareholders receiving them may incur brokerage costs when these securities are sold and will be subject to market risk until such securities are sold. An irrevocable election has been filed under Rule 18f-1 of the 1940 Act, wherein the Fund must pay redemptions in cash, rather than in kind, to any shareholder of record of the Fund who redeems during any 90-day period, the lesser of (a) \$250,000 or (b) 1% of the Fund's net assets at the beginning of such period. Redemption requests in excess of this limit may be satisfied in cash or in kind at the Fund's election. The Fund's methods of satisfying shareholder redemption requests will normally be used during both regular and stressed market conditions.

GENERAL INFORMATION

Signature Guarantees. To help protect you and the Fund from fraud, signature guarantees are required for: (1) all redemptions ordered by mail if you require that the check be made payable to another person or that the check be mailed to an address other than the one indicated on the account registration; (2) all requests to transfer the registration of shares to another owner; and (3) all authorizations to establish or change telephone redemption service, other than through your initial account application. Signature guarantees may be required for certain other reasons. For example, a signature guarantee may be required if you sell a large number of shares or if your address of record on the account has been changed within the last thirty (30) days.

In the case of redemption by mail, signature guarantees must appear on either: (1) the written request for redemption; or (2) a separate instrument of assignment (usually referred to as a "stock power") specifying the total number of shares being redeemed. The Trust may waive these requirements in certain instances.

An original signature guarantee assures that a signature is genuine so that you are protected from unauthorized account transactions. Notarization is not an acceptable substitute. Acceptable guarantors only include participants in the Securities Transfer Agents Medallion Program (STAMP2000). Participants in STAMP2000 may include financial institutions such as banks, savings and loan associations, trust companies, credit unions, broker-dealers and member firms of a national securities exchange.

Proper Form. Your order to buy shares is in proper form when you're completed and signed account application and check or wire payment is received. Your written request to sell or exchange shares is in proper form when written instructions signed by all registered owners, with a signature guarantee if necessary, is received by the Fund.

Automatic Investment Plan. Existing shareholders, who wish to make regular monthly investments in amounts of \$100 or more, may do so through the Automatic Investment Plan. Under the Automatic Investment Plan, your designated bank or other financial institution debits a pre-authorized amount from your account on or about the 15th day of each month and applies the amount to the purchase of Fund shares. To use this service, you must authorize the transfer of funds by completing the Automatic Investment Plan section of the account application and sending a blank voided check.

Exchange Privilege. To the extent the Adviser manages other funds in the Trust, you may exchange all or a portion of your shares in the Fund for shares of the same class of certain other funds of the Trust managed by the Adviser having different investment objectives, provided that the shares of the fund you are exchanging into are registered for sale in your state of residence. An exchange is treated as a redemption and purchase and will generally result in realization of a taxable gain or loss on the transaction. You won't pay a deferred sales charge on an exchange; however, when you sell the shares you acquire in an exchange, you will pay a deferred sales charge based on the date you bought the original shares you exchanged. As of the date of this prospectus, the Adviser does not manage any other funds in the Trust.

Frequent purchases and redemptions ("Frequent Trading") (as discussed below) can adversely impact Fund performance and shareholders. Therefore, the Trust reserves the right to temporarily or permanently modify or terminate the Exchange Privilege.

The Trust also reserves the right to refuse exchange requests by any person or group if, in the Trust's judgment, the Fund would be unable to invest the money effectively in accordance with its investment objective and policies, or would otherwise potentially be adversely affected. The Trust further reserves the right to

restrict or refuse an exchange request if the Trust has received or anticipates simultaneous orders affecting significant portions of the Fund's assets or detects a pattern of exchange requests that coincides with a "market timing" strategy. Although the Trust will attempt to give you prior notice when reasonable to do so, the Trust may modify or terminate the Exchange Privilege at any time.

How to Transfer Shares. If you wish to transfer shares to another owner, send a written request to the Transfer Agent at 8730 Stony Point Parkway, Suite 205, Richmond, VA 23235. Your request should include: (i) the name of the Fund and existing account registration; (ii) signature(s) of the registered owner(s); (iii) the new account registration, address, taxpayer identification number and how dividends and capital gains are to be distributed; (iv) any stock certificates which have been issued for the shares being transferred; (v) signature guarantees (See "Signature Guarantees"); and (vi) any additional documents which are required for transfer by corporations, administrators, executors, trustees, guardians, etc. If you have any questions about transferring shares, call the Transfer Agent toll-free at (800) 628-4077.

Account Statements and Shareholder Reports. Each time you purchase, redeem or transfer shares of the Fund, you will receive a written confirmation. You will also receive a year-end statement of your account if any dividends or capital gains have been distributed, and an annual and a semi-annual report.

Shareholder Communications. The Fund may eliminate duplicate mailings of portfolio materials to shareholders who reside at the same address, unless instructed to the contrary. Investors may request that the Fund send these documents to each shareholder individually by calling the Fund toll-free at (800) 673-0550.

General. The Fund will not be responsible for any losses from unauthorized transactions (such as purchases, sales or exchanges) if it follows reasonable security procedures designed to verify the identity of the investor. You should verify the accuracy of your confirmation statements immediately after you receive them.

DIVIDENDS, DISTRIBUTIONS AND TAXES

Dividends and Capital Gain Distributions. Dividends from net investment income, if any, are declared and paid annually by the Fund. The Fund intends to distribute annually any net capital gains.

Dividends and distributions will automatically be reinvested in additional shares of the Fund, unless you elect to have the distributions paid to you in cash. There are no sales charges or transaction fees for reinvested dividends and all shares will be

purchased at NAV. Shareholders will be subject to tax on all dividends and distributions whether paid to them in cash or reinvested in shares. If the investment in shares is made within an IRA, all dividends and capital gain distributions must be reinvested.

Unless you are investing through a tax deferred retirement account, such as an IRA, it is generally disadvantageous for you to buy shares of the Fund shortly before the next distribution, because doing so can cost you money in taxes. This is known as "buying a dividend". To avoid buying a dividend, check the Fund's distribution schedule before you invest.

Taxes. In general, Fund distributions are taxable to you as ordinary income, qualified dividend income, or capital gain. This is true whether you reinvest your distributions in additional shares of the Fund or receive them in cash. Any long-term capital gain the Fund distributes is taxable to you as long-term capital gains no matter how long you have owned your shares. Other Fund distributions (including distributions attributable to short-term capital gain of the Fund) will generally be taxable to you as ordinary income, except that distributions that are designated as "qualified dividend income" will be taxable at the rates applicable to long-term capital gain. Every January, you will receive a Form 1099 that shows the tax status of distributions you received for the previous year. Distributions declared in December but paid in January are taxable as if they were paid in December. The one major exception to these tax principles is that distributions on, and sales, exchanges and redemptions of, shares held in an IRA (or other tax-deferred retirement account) will not be currently taxable.

When you sell shares of the Fund, you will generally have a capital gain or loss. For tax purposes, an exchange of your shares of the Fund for shares of a different fund of the Trust is the same as a sale. The individual tax rate on any gain from the sale or exchange of your shares depends on how long you have held your shares.

Fund distributions and gains from the sale or exchange of your shares will generally be subject to state and local income tax. Non-U.S. investors may be subject to U.S. withholding and estate tax. You should consult with your tax adviser about the federal, state, local or foreign tax consequences of your investment in the Fund.

By law, the Fund must withhold 24% of your taxable distributions and proceeds if you do not provide your correct taxpayer identification number (TIN) or fail to certify that your TIN is correct and that you are a U.S. person, or if the Internal Revenue Service (the "IRS") has notified you that you are subject to backup withholding and instructs the Fund to do so.

Cost Basis Reporting. Federal law requires that mutual fund companies report their shareholders' cost basis, gain/loss, and holding period to the Internal

Revenue Service on the Fund's shareholders' Consolidated Form 1099s when "covered" securities are sold. Covered securities are any regulated investment company and/or dividend reinvestment plan shares acquired on or after January 1, 2012.

The Fund has chosen average cost as the standing (default) tax lot identification method for all shareholders. A tax lot identification method is the way the Fund will determine which specific shares are deemed to be sold when there are multiple purchases on different dates at differing net asset values, and the entire position is not sold at one time. The Fund has chosen average cost as its standing (default) tax lot identification method for all shareholders. The Fund's standing tax lot identification method is the method covered shares will be reported on your Consolidated Form 1099 if you do not select a specific tax lot identification method. You may choose a method different than the Fund's standing method and will be able to do so at the time of your purchase or upon the sale of covered shares. Please refer to the appropriate Internal Revenue Service regulations or consult your tax advisor with regard to your personal circumstances.

For those securities defined as "covered" under current Internal Revenue Service cost basis tax reporting regulations, the Fund is responsible for maintaining accurate cost basis and tax lot information for tax reporting purposes. The Fund is not responsible for the reliability or accuracy of the information for those securities that are not "covered." The Fund and its service providers do not provide tax advice. You should consult independent sources, which may include a tax professional, with respect to any decisions you may make with respect to choosing a tax lot identification method.

NET ASSET VALUE

The Fund's share price, called the NAV per share, is determined as of the close of trading on the NYSE (generally, 4:00 p.m. Eastern time) on each business day that the NYSE is open (the "Valuation Time"). As of the date of this prospectus, the Fund has been informed that the NYSE observes the following holidays: New Year's Day, Martin Luther King Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. NAV per share is computed by adding the total value of the Fund's investments and other assets attributable to the Fund's Class A, Class C and Advisor Class shares, subtracting any liabilities attributable to the applicable class and then dividing by the total number of the applicable classes' shares outstanding. Due to the fact that different expenses may be charged against shares of different classes of the Fund, the NAV of the different classes may vary.

Shares of the Fund are bought or exchanged at the public offering price per share next determined after a request has been received in proper form. The public

offering price of the Fund's shares is equal to the NAV plus the applicable front-end sales charge, if any. Shares of the Fund held by you are sold or exchanged at the NAV per share next determined after a request has been received in proper form, less any applicable deferred sales charge. Any request received in proper form before the Valuation Time, will be processed the same business day. Any request received in proper form after the Valuation Time, will be processed the next business day.

The Fund's securities are valued at current market prices. Investments in securities traded on national securities exchanges are valued at the last reported sale price. For securities traded on NASDAQ, the NASDAQ Official Closing Price will be used. Other securities traded in the over-the-counter market and listed securities for which no sales are reported on a given date are valued at the last reported bid price. Debt securities are valued by appraising them at prices supplied by a pricing agent approved by the Trust, which prices may reflect broker-dealer supplied valuations and electronic data processing techniques. Short-term debt securities (less than 60 days to maturity) are valued at their fair market value using amortized cost. Other assets for which market prices are not readily available are valued at their fair value as determined in good faith by the administrator, in consultation with the Adviser, under procedures set by the Board. Generally, trading in corporate bonds, U.S. government securities and money market instruments is substantially completed each day at various times before the scheduled close of the NYSE. The value of these securities used in computing the NAV is determined as of such times.

The Trust has a policy that contemplates the use of fair value pricing to determine the NAV per share of the Fund when market prices are unavailable as well as under special circumstances, such as: (i) if the primary market for a portfolio security suspends or limits trading or price movements of the security; and (ii) when an event occurs after the close of the exchange on which a portfolio security is principally traded that is likely to have changed the value of the security. Since most of the Fund's investments are traded on U.S. securities exchanges, it is anticipated that the use of fair value pricing will be limited.

When the Trust uses fair value pricing to determine the NAV per share of the Fund, securities will not be priced on the basis of quotations from the primary market in which they are traded, but rather may be priced by another method that the Board believes accurately reflects fair value. Any method used will be approved by the Board and results will be monitored to evaluate accuracy. The Trust's policy is intended to result in a calculation of the Fund's NAV that fairly reflects security values as of the time of pricing.

Share Class Alternatives. The Fund offers investors three different classes of shares through this prospectus. The different classes of shares represent

investments in the same portfolio of securities, but the classes are subject to different expenses and may have different share prices and minimum investment requirements. When you buy shares be sure to specify the class of shares in which you choose to invest. Because each share class has a different combination of sales charges, expenses and other features, you should consult your financial adviser to determine which class best meets your financial objectives.

FREQUENT PURCHASES AND REDEMPTIONS

Frequent purchases and redemptions ("Frequent Trading") of shares of the Fund may present a number of risks to other shareholders of the Fund. These risks may include, among other things, dilution in the value of shares of the Fund held by long-term shareholders, interference with the efficient management by the Adviser of the Fund's portfolio holdings, and increased brokerage and administration costs. Due to the potential of an overall adverse market, economic, political, or other conditions affecting the sale price of portfolio securities, the Fund could face untimely losses as a result of having to sell portfolio securities prematurely to meet redemptions. Current shareholders of the Fund may face unfavorable impacts as portfolio securities concentrated in certain sectors may be more volatile than investments across broader ranges of industries as sector-specific market or economic developments may make it more difficult to sell a significant amount of shares at favorable prices to meet redemptions. Frequent Trading may also increase portfolio turnover, which may result in increased capital gains taxes for shareholders of the Fund. These capital gains could include short-term capital gains taxed at ordinary income tax rates.

The Trustees have adopted a policy that is intended to identify and discourage Frequent Trading by shareholders of the Fund under which the Trust's Chief Compliance Officer and Transfer Agent will monitor Frequent Trading through the use of various surveillance techniques. Under these policies and procedures, shareholders may not engage in more than four "round-trips" (a purchase and sale or an exchange in and then out of a Fund) within a rolling twelve month period. Shareholders exceeding four round-trips will be investigated by the Fund and if, as a result of this monitoring, the Fund believes that a shareholder has engaged in frequent trading, it may, in its discretion, ask the shareholder to stop such activities or refuse to process purchases in the shareholder's accounts. The intent of the policies and procedures is not to inhibit legitimate strategies, such as asset allocation, dollar cost averaging or similar activities that may nonetheless result in Frequent Trading of Fund shares. To minimize harm to the Fund and its shareholders, the Fund reserves the right to reject any exchange or purchase of Fund shares with or without prior notice to the account holder. In the event the foregoing purchase and redemption patterns occur, it shall be the policy of the Trust that the shareholder's account and any other account with the Fund under the same taxpayer identification number shall be precluded from investing in the Fund

(including investment that are part of an exchange transaction) for such time period as the Trust deems appropriate based on the facts and circumstances (including, without limitation, the dollar amount involved and whether the Investor has been precluded from investing in the Fund before); provided that such time period shall be at least 30 calendar days after the last redemption transaction. The above policies shall not apply if the Trust determines that a purchase and redemption pattern is not a Frequent Trading pattern or is the result of inadvertent trading errors.

These policies and procedures will be applied uniformly to all shareholders and, subject to certain permissible exceptions as described above, the Fund will not accommodate abusive Frequent Trading. The policies also apply to any account, whether an individual account or accounts with financial intermediaries such as investment advisers, broker dealers or retirement plan administrators, commonly called omnibus accounts, where the intermediary holds Fund shares for a number of its customers in one account. Omnibus account arrangements permit multiple investors to aggregate their respective share ownership positions and purchase, redeem and exchange Fund shares without the identity of the particular shareholder(s) being known to the Fund. Accordingly, the ability of the Fund to monitor and detect Frequent Trading activity through omnibus accounts is very limited and there is no guarantee that the Fund will be able to identify shareholders who may be engaging in Frequent Trading through omnibus accounts or to curtail such trading. However, the Fund will establish information sharing agreements with intermediaries as required by Rule 22c-2 under the 1940 Act that may require sharing of information about you and your account, and otherwise use reasonable efforts to work with intermediaries to identify excessive short-term trading in underlying accounts.

If the Fund identifies that excessive short-term trading is taking place in a participant-directed employee benefit plan accounts, the Fund or its Adviser or Transfer Agent will contact the plan administrator, sponsor or trustee to request that action be taken to restrict such activity. However, the ability to do so may be constrained by regulatory restrictions or plan policies. In such circumstances, it is generally not the policy of the Fund to close the account of an entire plan due to the activity of a limited number of participants. However, the Fund will take such actions as deemed appropriate in light of all the facts and circumstances.

The Fund's policies provide for ongoing assessment of the effectiveness of current policies and surveillance tools, and the Trustees reserves the right to modify these or adopt additional policies and restrictions in the future. Shareholders should be aware, however, that any surveillance techniques currently employed by the Fund or other techniques that may be adopted in the future, may not be effective, particularly where the trading takes place through certain types of omnibus accounts. As noted above, if the Fund is unable to detect and deter trading abuses, the Fund's performance, and its long term shareholders, may be

harmed. In addition, shareholders may be harmed by the extra costs and portfolio management inefficiencies that result from Frequent Trading, even when the trading is not for abusive purposes.

DISTRIBUTION ARRANGEMENTS

The Fund is offered through financial supermarkets, investment advisers and consultants, financial planners, brokers, dealers and other investment professionals, and directly through the Distributor. Investment professionals who offer shares may request fees from their individual clients. If you invest through a third party, the policies and fees may be different than those described in this prospectus. For example, third parties may charge transaction fees or set different minimum investment amounts. If you purchase your shares through a broker-dealer, the broker-dealer firm is entitled to receive a percentage of the sales charge you pay in order to purchase Fund shares.

Because complete information about sales loads for the various classes is presented in this prospectus, it is not provided additionally on the Fund's website.

Class A Shares

Class A shares are subject to a front-end sales charge and a distribution fee. The following schedule governs the percentage to be received by the selling broker-dealer firm for selling Class A shares.

<u>Amount of purchase at the public offering price</u>	<u>Sales charge as a percentage of</u>		<u>Discount as a percentage of offering price</u>
	<u>Offering Price⁽¹⁾</u>	<u>New amount Invested</u>	
Less than \$50,000	5.75%	6.10%	5.00%
\$50,000 but less than \$100,000	4.50%	4.71%	3.75%
\$100,000 but less than \$250,000	3.50%	3.63%	2.75%
\$250,000 but less than \$500,000	2.50%	2.56%	2.00%
\$500,000 but less than \$1,000,000	2.00%	2.04%	1.75%
\$1,000,000 or more	See below ⁽²⁾	See below ⁽²⁾	See below ⁽²⁾

⁽¹⁾ The term "Offering Price" includes the front-end sales charge.

⁽²⁾ If you are in a category of investors who may purchase Class A shares without paying a front-end sales charge, you may be subject to a 1.00% deferred sales charge if you redeem your shares less than 1 year from purchase. Shares acquired through reinvestment of dividends or capital gain distributions are not subject to a front-end or deferred sales charge. In

addition, the deferred sales charge on shares purchased without the payment of a front-end sales charge and redeemed within 1 year of purchase may be waived in certain circumstances. The deferred sales charge on redemptions of shares is computed based on a percentage of the NAV at the time the shares were purchased, net of reinvested dividends and capital gains distributions. The deferred sales charge would equal 1.00% of the offering price and of the net amount invested. In determining whether to charge a deferred sales charge, the Fund will assume that you have redeemed shares on which there is no deferred sales charge first and then shares in the order of purchase.

For accounts that are subject to a deferred sales charge, the Fund will use the first-in, first-out ("FIFO") method to determine the 1 year holding period. Under this method, the date of the redemption will be compared to the earliest purchase date of shares held in the account. If this holding period is less than 1 year, the deferred sales charge will be assessed. The deferred sales charge will be applied on redemptions of each investment made by a shareholder that does not remain in the Fund for a 1 year period from the date of purchase.

Sales Charge Reductions and Waivers

The Fund reserves the right to waive the deferred sales charge on certain Class A shares in order to qualify the Fund for inclusion in brokerage platforms, wrap programs and fund supermarkets. If you are in a category of investors who purchase Class A shares through such programs, you will be subject to a 1.00% redemption fee if you redeem your shares less than 1 year after you purchase them. If this fee is imposed it would raise the expenses of your shares. Such fees, when imposed, are credited directly to the assets of the Fund to help defray the expenses to the Fund of short-term trading activities. These fees are never used to pay distribution or sales fees or expenses. The redemption fee will not be assessed on certain types of accounts or under certain conditions.

Shares acquired through reinvestment of dividends or capital gain distributions are not subject to a front-end or redemption fee. In addition, the redemption fee on shares purchased without the payment of a front-end sales charge and redeemed within 1 year of purchase may be waived in certain circumstances. The redemption fee is computed based on a percentage of the NAV at the time the shares were purchased, net of reinvested dividends and capital gains distributions. The redemption fee would equal 1.00% of the offering price and of the net amount invested.

To receive a reduction or waiver of your initial sales charge, you or your financial consultant must notify the Fund's transfer agent or your financial intermediary at the time of purchase that you qualify for such a reduction or waiver. If you do

not let your financial intermediary or the Fund's Transfer Agent know that you are eligible for a reduction or waiver, you may not receive the reduction or waiver to which you are otherwise entitled. Certain individuals and employer-sponsored retirement plans may link accounts for the purpose of qualifying for lower initial sales charges. You or your financial consultant must provide other account numbers to be considered for Rights of Accumulation, or mark the Letter of Intent section on the account application, or provide other relevant documentation, so that the Fund's Transfer Agent can verify your eligibility for the reduction or waiver. In order to receive a reduction or waiver, you may be required to provide your financial intermediary or the Fund's Transfer Agent with evidence of your qualification for the reduction or waiver, such as records regarding Fund shares held in accounts with that financial intermediary and other financial intermediaries. Consult the Fund's SAI for additional details.

You can reduce your initial sales charge in the following ways:

Right of Accumulation. After making an initial purchase, you may reduce the sales charge applied to any subsequent purchases. Your Class A shares purchased will be taken into account on a combined basis at the current NAV per share in order to establish the aggregate investment amount to be used in determining the applicable sales charge. Only previous purchases of Class A shares that are still held in the Fund and that were sold subject to a sales charge will be included in the calculation. To take advantage of this privilege, you must give notice at the time you place your initial order and subsequent orders that you wish to combine purchases. When you send your payment and request to combine purchases, please specify your account number(s).

Statement of Intention. A reduced sales charge on Class A shares of the Fund, as set forth above, applies immediately to all purchases where the investor has executed a Statement of Intention calling for the purchase within a 13-month period of an amount qualifying for the reduced sales charge. The investor must actually purchase the amount stated in such statement to avoid later paying the full sales charge on shares that are purchased.

Combine with family member. You can also count toward the amount of your investment all investments by your spouse and your children under age 21 (family members), including their rights of accumulation and goals under a letter of intent. Certain other groups may also be permitted to combine purchases for purposes of reducing or eliminating sales charges, such as: a retirement plan established exclusively for the benefit of an Individual, specifically including, but not limited to, a Traditional IRA, Roth IRA, SEP IRA, SIMPLE IRA, Solo 401(k), Keogh plan, or a tax-sheltered 403(b)(7) custodial account; and a qualified tuition plan account, maintained pursuant to Section 529 of the Code, or a Coverdell Education Savings Account, maintained pursuant to Section 530 of the Code (in either case,

the account must be established by an Individual or have an Individual named as the beneficiary thereof).

Waiver of Front-End Sales Charges - Class A Shares

No sales charge shall apply to:

- (1) reinvestment of income dividends and capital gain distributions;
- (2) exchanges of the Fund's shares for those of another fund of the Trust;
- (3) purchases of Fund shares made by current or former directors, officers or employees, or agents of the Trust, the Adviser, the Sub- Adviser, the Distributor, and by members of their immediate families and employees (including immediate family members) of a broker-dealer distributing Fund shares;
- (4) purchases of Fund shares by the Distributor for their own investment account and for investment purposes only;
- (5) a "qualified institutional buyer," as that term is defined under Rule 144A of the Securities Act of 1933, including, but not limited to, insurance companies, investment companies registered under the 1940 Act, business development companies registered under the 1940 Act, and small business investment companies;
- (6) a charitable organization, as defined in Section 501(c)(3) of the Internal Revenue Code (the "Code"), as well as other charitable trusts and endowments, investing \$50,000 or more;
- (7) a charitable remainder trust, under Section 664 of the Code, or a life income pool, established for the benefit of a charitable organization as defined in Section 501(c)(3) of the Code;
- (8) investment advisers or financial planners who place trades for their own accounts or the accounts of their clients and who charge a management, consulting or other fee for their services; and clients of those investment advisers or financial planners who place trades for their own accounts if the accounts are linked to the master account of the investment adviser or financial planner on the books and records of the broker or agent;
- (9) institutional retirement and deferred compensation plans and trusts used to fund those plans, including, but not limited to, those defined in section 401(a), 403(b) or 457 of the Code and "rabbi trusts"; and

- (10) the purchase of Fund shares, if available, through certain third-party fund "supermarkets." Some fund supermarkets may offer Fund shares without a sales charge or with a reduced sales charge. Other fees may be charged by the service-provider sponsoring the fund supermarket, and transaction charges may apply to purchases and sales made through a broker-dealer.

Additional information regarding the waiver of sales charges may be obtained by calling the Trust toll-free at (800) 673-0550. All account information is subject to acceptance and verification by the Fund's Distributor.

Class C Shares

Deferred Sales Charge. Class C shares are sold without an initial front-end sales charge so that the full amount of your purchase is invested. A deferred sales charge of 1.00% is applied if your Class C shares are sold within one year and is paid to the Distributor.

Shares acquired through reinvestment of dividends or capital gain distributions are not subject to a deferred sales charge. In addition, the deferred sales charge may be waived in certain circumstances. The deferred sales charge is a percentage of the net asset value at the time of purchase. Class C shares are subject to a Distribution (12b-1) and Service Fee as described below under "Rule 12b-1 Fees."

Waiver of Deferred Sales Charge

The deferred sales charge on Class C shares is waived for:

- (1) certain post-retirement withdrawals from an IRA or other retirement plan if you are over 70 ½;
- (2) redemptions by certain eligible 401(a) and 401(k) plans and certain retirement plan rollovers;
- (3) withdrawals resulting from shareholder death or disability provided that the redemption is requested within one year of death or disability; and
- (4) Withdrawals through Systematic Monthly Investment (systematic withdrawal plan).

Additional information regarding the waiver of sales charges may be obtained by calling the Trust toll-free at (800) 673-0550. All account information is subject to acceptance and verification by the Fund's Distributor.

Advisor Class Shares

Advisor Class shares do not charge a front end or deferred sales load and have no Rule 12b-1 fees.

FINANCIAL HIGHLIGHTS

The financial highlights tables are intended to help you understand the Fund's Class A, Class C and Advisor Class shares' financial performance for the period of each Fund Class shares' operations. Certain information reflects financial results for a single Class share. The total returns in the table represent the rate that an investor would have earned [or lost] on an investment in shares of the Fund (assuming reinvestment of all dividends and distributions). The financial highlights for the period presented have been audited by Cohen & Company, Ltd., the Fund's independent registered public accounting firm, whose unqualified report thereon, along with the Fund's financial statements, are included in the Fund's Annual Report to Shareholders (the "Annual Report") and are incorporated by reference into the SAI. Additional performance information for the Fund is included in the Annual Report. The Annual Report and the SAI are available at no cost from the Fund at the address and telephone number noted on the back page of this prospectus. The following information should be read in conjunction with the financial statements and notes thereto.
